Claim Progress On Eastern Front—Casualties Huge

Soviet Armies Battle To Stem Moscow Drive

Some New Setbacks In Bryansk Area Are Admitted In Moscow

SAY NAZI GAINS AT TERRIFIC COST

Smashing Soviet Air Attacks On Invading Nazis Claimed By Russians

(BULLETIN)

MOSCOW, Oct. 10.—New setbacks to Russian troops in the Bryansk area were admitted in Moscow today although smashing Soviet air attacks were claimed as the Red armies fought to stem the Nazi drive against Moscow.

Hurling three tank divisions, two motorized infantry divisions and three regular infantry divisions against Russian positions at Bryansk, the Germans succeeded in crumpling the Red defenses at a number of places, the army newspaper Red Star admitted.

At Terrific Cost

The Nazi gains, however, were made only at "terrific" cost to themselves, the paper said. (Editor's Note: Germany, on the other hand, insisted that all advances were still being made with only slight losses. Yesterday, the Nazis claimed their casualties thus far were only 5 per cent. of world war days. London, however, freely admitted the gravity of the situation and there was a rising tide of clamor for a British offensive on some untested front to divert the Nazis before Russia is forced into collapse.)

125 Miles From Moscow

The Red Star's summary dealt only with the perilous situation on the central front, where the Germans are now only 125 miles from Moscow and apparently are attempting to smash through to the vital railway junction of Tula.

PA NEW OBSERVES

Despite the fact that maple trees around the city shed thousands of seeds over the sidewalks and streets as spring, some of the same species of trees are scattering seeds in profusion again this fall, it is noted.

Taggart stadium will be dark tonight. There is no game scheduled for tonight. New Castle high school team plays on Saturday afternoon at McKeesport.

On the lawn of a home on East Washington street, near Arlington avenue, stands a mighty oak tree, which seems to bear a one-sided burden. On the side of the tree next to the house, the trunk is bare of limbs up to the crowning branches. On the western side there are about half a dozen large outstretched branches, still the sturdy roots and trunk hold up bravely.

Residents near the corner of Adams and Stanton avenue, would like to know how to get rid of a flock of starlings that roost in a tree near by, and keep up a constant din.

Deposed President Of Panama, At Havana

By RICHARD ARMSTRONG
International News Service Staff Correspondent

HAVANA, Oct. 10.—Arnulfo Arias, deposed president of Panama, remained in Havana today after making it clear he does not plan to rush back and attempt to regain his office for fear such a move might cause bloodshed.

"I am not pro-Axis and not opposed to the United States," Arias declared when he was discovered in Havana a few hours after a coup d'etat in Panama City established a new government described as having strong pro-American leanings.

Arias denied he came to Havana to escape trouble. But when he was asked directly whether the coup was the result of his opposition to the arming of American-owned Panamanian ships, he retorted: "Draw your own conclusions."

First Reports In Chest Drive Show Total Of \$15,000

Community Chest campaigners reported more than \$15,000 of their goal of \$65,000 subscribed at their first breakfast report rally in The Castleton this morning.

None of the 11 major divisions made complete tallies and two made none at all. Campaign leaders and the solicitor army drew encouragement from the first figures because as Judge W. Walter Braham, campaign chairman, said, "we all feel a \$15,000 showing this morning would be most heartening."

Report Again On Tuesday

The reports that did not come in would probably have showed the first total higher, but like in all drives, the preliminary responses from the teams are usually slow.

The campaign group will meet for its second report at an 8 o'clock breakfast in the hotel Tuesday, October 14. Attendance today was large.

The drive, aiming to fill the Chest to keep operating nine welfare and (Continued On Page Two)

Chinese Open New Offensive

(BULLETIN)

(International News Service)
CHUNGKING, Oct. 10.—Chinese military authorities announced today that their forces have captured the key Yai, the river port of Ichang as the opening blow of the new offensive in central China.

The announcement said the Chinese forced their way into the city early this morning and wiped out the entire Japanese garrison with the exception of "one officer and one private."

The Chinese first occupied the water front and disarmed Japanese forces in that sector while street fighting raged in front of the custom house. Later, it was claimed, the Chinese gained control of the entire city.

Chinese forces spread out their operations on a wide scale today after occupying the Yangtze river port of Ichang as the first major success of their new central China offensive.

The Chinese troops are fighting over such difficult terrain and moving forward from their bases so quickly that they are carrying most of their ammunition with them instead of awaiting supplies from the rear.

Occupation of Ichang, officers said, may change the entire military picture by improving Chinese communications and lines of supply.

He said he had a hunch how the letter got into Nazi hands but declined to reveal its nature.

New Criticism Of British War Policy Flares

Pressure Increases In Britain For All-Out Aid To Russia

Shake-Up In Cabinet May Develop As Result Of War Policy

By CHARLES A. SMITH
International News Service Staff Correspondent

LONDON, Oct. 10.—Renewed criticism of British war policy flared up in London today as a result of grim developments in Russia, and pressure increased on the government for all-out aid to the embattled Soviets.

As the criticism assumed ever-growing proportions, some predictions were made that the house of commons soon may hold an "inquest" which might lead to demands for a shake-up in Prime Minister Winston Churchill's cabinet.

To Ask Statement

Emanuel Shinwell, laborite member who already has had many tiffs with Churchill, served notice he will ask the prime minister for a full statement regarding developments on the eastern front.

It appeared there are sufficient other critics to demand a special debate on war policy even against the government's will. Supporters of Churchill branded the next wave of criticism as unfair and said the government simply has followed the advice of its service chiefs, who have advised against a British continental invasion or offensive for the present.

The most competent opinion is that a cabinet shake-up always can be expected, but it probably will be confined to a long-pending injection of new blood into the less important posts, rather than a major cabinet reshuffle.

Demand More Aid

Although the press is virtually unanimous in demanding more concrete and direct aid for Russia, A. J. Cummings of the London News Chronicle launched probably the fiercest verbal attack on the government yet voiced since the war began. "Since the campaign started in (Continued On Page Two)

New Non-Defense Building Plans Will Be Halted

Order Halting Much Proposed Building Creates Much Opposition

By JACK VINCENT
International News Service Staff Correspondent

WASHINGTON, Oct. 10.—The O. P. M. officially estimated today that the drastic government policy banning any new public and private non-defense building for the duration of the national emergency would slash such construction work by \$4,000,000 next year and force at least 500,000 men out of work.

The overall cut in the construction field, however, will be only \$2,700,000 since defense building, particularly of new tank and airplane factories, will increase. But as far as the American public is concerned, (Continued On Page Two)

Their Two-Bride Marriage Ends

After posing as a man for the past 15 years, Frances Orlando, 31, (left), confessed to police at Los Angeles that she married an 18-year-old girl, Elizabeth Munz (right) last Labor Day after eloping to Minden, Nev. Both are pictured sometime after their marriage which the Orlando girl described as "being a very happy one." Miss Munz told police that she knew her "husband" was not a man, but their marriage provided her with an opportunity "to get away from home."

Will Seek To Speed Action On Measure To Arm American Ships

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Oct. 10.—Congressional administration leaders today adopted a time-table calling for passage of the resolution to arm American ships in three weeks, but some foes saw possibility of the fight developing into a bitter, full-dress debate over American entrance into the war.

The possibility of a senate filibuster, rivaling the pre-World war filibuster of the "little band of wild men" against President Wilson's armed neutrality plan also was seen by leaders of the opposition denied that they have any such plan.

Administration leaders estimated that the bill authorizing the president to arm merchant ships against U-boats and airplanes, as asked by the president in his special message yesterday, will pass the house by a vote of approximately 200 to 150 and in the senate by a two to one majority.

Rep. Andrews (R-N.Y.), whose prediction of its kind, the O.P.M. today moved to convert virtually all of the household washing machine and ironer manufacturing industry into munitions work to avert widespread unemployment caused by priorities.

Floyd B. Okun, head of the O.P.M.'s defense contract distribution service, certified the industry to the war department as one in need of defense contracts to prevent drastic curtailment of shutdown of business. Through the action, it is expected that a substantial part of the industry, if not most of it, will be converted to munitions production.

It was the first time in record that an entire industry had been certified in such a manner. Previous certifications have covered communities rather than entire industries.

BREACH IN FRONT 300 MILES WIDE

Steady Progress In Drive For Moscow In Of Nazis Today

By PIERRE J. HUSS
International News Service Staff Correspondent

BERLIN, Oct. 10.—Following up their latest sweeping victories in the drive against Moscow, German authorities said today, Chancellor Hitler's legions are sweeping forward on the entire front "like a seven-day flood."

Military spokesman in Berlin said the German forces are steadily capturing important key points and "driving a spearhead into the heart of the dying Red empire."

Breach 300 Miles Wide

They declared the German-wrought breach on the central front is 500 kilometers—about 300 miles—wide. Through this great hole, they maintained, ace German blitz troops are pouring at top speed and driving the Reds before them everywhere.

An official announcement said Orel fell to the Germans as long ago as Oct. 3.

Soviet forces "enveloped" along the sea of Azov and at Berdjansk and Vyazma have been "pushed back farther" by new German drives, the official high command communique said, while the entire German breakthrough of 500 kilometers was extended to the east.

West of Leningrad it was said, another "sortie" by enemy tanks was frustrated.

Annihilation Campaign

Meanwhile, it was stated, an unprecedented campaign of annihilation by land and air forces is under way against the central front Red armies commanded by Marshal Semyon Timoshenko.

Whole divisions were declared to be trapped by German encirclement rings and thousands of Russians were reported dying under a hail of Stuka bombs and artillery shells.

German authorities also said that yesterday Soviet forces made a determined attempt to land from the Gulf of Finland at a point on the coast outside Leningrad.

Purpose of this attempted landing was said to be a Russian attempt to break through the German iron (Continued On Page Two)

LIQUOR STORE CLERKS GIVEN PAY INCREASE

The new liquor wage scale will increase salaries as follows: Employees with between one and two years of service, from \$1,200 to \$1,260; more than two but less than three years, from \$1,260 to \$1,320; and those with more than three years service, from \$1,320 to \$1,380.

Surprise Move In Lend-Lease Plan

Opposition To Aid To Russia

Would Demand Freedom Of Religion And Halt Of Communist Propaganda

WOMAN LEGISLATOR PROPOSES MOVE

By GRIFFING BANCROFT International News Service Staff Correspondent

WASHINGTON, Oct. 10.—A strong surprise move developed in the house today to bar lend-lease aid to Russia until that country guarantees freedom of religion to its people and pledges to stop fostering communist propaganda in the United States.

The drive came as the lower chamber neared a showdown vote on the new \$6,000,000,000 lend-lease bill, carrying funds for more food war materials and other equipment for the democracies.

With support for a proposal that the Soviets be banned outright from this help apparently weakening Rep. Edith Nourse Rogers (R) Mass., announced she would seek to enforce religious freedom in Russia and halt propaganda.

She said, "I don't, as a matter of fact, see how members of congress can honestly vote against it."

The amendment simply to bar Russia from lend-lease money is to be offered by Rep. Rich (R) Pa., a member of the appropriations committee, but leaders of both parties are inclined to believe it will not prevail.

The other amendment, however, was given "a good chance" by most representatives and promised to develop a vigorous floor fight before a final vote on the huge spending measure is reached.

Driving to complete passage of the bill by nightfall, Speaker Rayburn ordered the house to convene an hour early today and Majority Leader McCormack said he would keep members in session until a final vote is taken.

There was little question even by the most vigorous opponents that the bill will pass, although non-interventionists claimed to have lined up greater strength than the 55 votes which were cast against the original \$7,000,000,000 lend-lease measure voted last March.

Most congressmen aren't sticking their necks out. Any opinion they express now may be dynamite before the next election.

day by means of a bloodless coup d'etat which speedily followed the mysterious departure of Arias from Panama City. The new regime was regarded as leaning toward closer collaboration with Washington's program for western hemisphere defense.

Key figures of the Arias regime were arrested. Ricardo Adolfo De La Guardia was sworn in as the republic's new president.

He actually was the third president in Panama in three days. After Arias was overthrown, De La Guardia's brother-in-law, Ernest Jaen Guardia, was sworn in as chief executive for a few hours but later handed over the office to his successor, who has been the leading figure of the anti-Arias faction.

Arias revealed he had telephoned to Panama City, seeking to learn whether he was at liberty to return. Friends advised him not to fly back immediately, saying his return might cause bloodshed.

Questioned regarding the cause of the coup, he merely replied:

"I don't know—unless it is because we are growing, and there must be some sacrifices during the process."

Later, in a written statement, he said:

"The news from Panama came as a great surprise to me, and I do not wish to comment."

"There was no question of flight involved."

"I have worked for the people, and for Panamanian sovereignty, for which I am proud, and for which I am ready to take the consequences."

"I came to Havana to consult an eye specialist, Dr. Cruz Plana, which I did this morning, and which can easily be verified. I brought only a small bag, and my passage for return to Panama already had been bought."

"I suspect the causes which brought about this agitation, and I do not blame the authors. Yet I regret these events, in the interests of my country, which I love and wished so much to help."

The attempt failed, it was claimed, and the Russians were beaten off with heavy losses.

More Successes

Berlin, Oct. 10.—Still more German successes on the central Russian front, where Nazi legions are driving against Moscow in a converging offensive, were announced by military authorities in Berlin today.

Crack Russian tank divisions commanded by Marshal Semyon Timoshenko, including a large number of 52-ton monsters, have been virtually wiped out in the wooded sector around Bryansk, the announcement said.

Approximately three Russian divisions were declared to have been "crushed" with a smaller iron ring. Bodies of thousands of Russian soldiers are strewn over the Bryansk battlefield, the communique said, adding that only a few wounded managed to escape with their lives from the annihilation ring.

tinuous chatter. This is especially annoying in the early mornings breaking up the sleep of those folks that are not required to get up at early dawn. These birds have been chased out by various methods, but as soon as their tormentors retire, they return to their haven of rest. One of the methods used to dislodge these feathered nuisances, was to give them a good "dousing" of water. They got out for a while, and came back to sleep soundly till early morning.

Two consolidated army bombers were reported flying over the city headed east at about 12:20 o'clock Thursday afternoon.

Folks had difficulty this morning to keep on their heads, because of the strong variable wind. It was common to see a person make a sudden grab for a hat to prevent the wind scooping it off, but despite this some got away, causing a swift chase for the hat's recovery. This will benefit the dry cleaning business.

character-building agencies operating through 1942, opened at workers' rally Monday night. It will continue until the \$65,000 is in.

Judge Braham Presides

Judge Braham presided over the morning session, and Rev. Sydney K. Bliss, pastor of Central Christian church and active campaign worker, pronounced the invocation. A brief speaker after breakfast was Dr. G. S. Bennett, pastor of First Christian church and drive vice chairman. Mrs. John E. Elliott, another vice chairman, was present as the reports came in.

This morning's actual total was \$15,090.10. Chest statisticians said. When the large industrial division announced its figures, only a few of the city's plants were represented. Most of them will require more time for complete solicitations. However, two firms did announce 100 per cent subscriptions—subscriptions which topped their giving of last year by 10 per cent.

A short pep song period enlivened today's rally. Numa F. Vidal Jr. led it and Mrs. William J. Caldwell, active in the women's division was pianist.

Totals By Divisions

By divisions the reports were: Mercantile division—\$1853. Financial (including banks, accountants, insurance concerns and real estate firms)—\$3440. Professional—\$797.60. Public employees—\$440.50. Educational Division 1—\$317. Education Division 2—\$1287. Women's—\$696. Utilities—\$641. Transportation—none. Industries—\$2935. County—none. Total today—\$15,090.10.

SOVIET ARMIES BATTLE TO STERN MOSCOW DRIVE

whose capture might cut Moscow off from food and other essential supplies.

The Communist Party newspaper Pravda, however, dealt with the situation at long-besieged Odessa. Despite constant shelling, the paper said, the population of this southern port and naval base is living a normal life.

Factories and offices are working at top pressure, Pravda said. Streets and avenues are covered with a dense network of barricades, forming a solid line of formidable defense works.

Fierce Fighting

The young and old constantly guard munitions and other plants, while almost every home has been transformed into a miniature fortress.

"Fierce and intense fighting is in progress around the walls of the city," the paper said.

"The broad Black Sea steppes are abundantly drenched with the black blood of the enemy."

The Moscow radio meanwhile said that German forces were holding their positions in the Lenin grad front "only by the skin of their teeth." Intense Soviet operations have brought a halt to the Nazi offensive, it was said.

Moscow newspapers today published aerial photographs of the city of Novgorod, showing the terrific damage wrought by German bombing planes.

Red Air Force Attacks

The central front correspondent of the Communist newspaper Pravda said the Red air force was attacking massed formations of Nazis in the two battle zones, "assisting our infantry, tanks and artillery to halt the frenzied German onslaught."

According to the Pravda account, the Russian planes were bombing the Germans from extremely low levels.

Meanwhile, the Red army organ Red Star denied categorically all German claims that Marshal Semyon Timoshenko's armies have been surrounded.

(Editor's Note: A German announcement said "Timoshenko's forces have been trapped on the central front and are dying by the thousands.")

A dispatch to the Red Star from the Orel sector said the southern claw of the German pincer has been held up as a result of "determined Soviet resistance" slightly north of Orel.

Tremendous Courage

"The way to the north is now blocked and the situation now requires consolidation," the dispatch said.

The Russian (Tass) news agency reported tremendous carnage on the Vyazma sector about 140 miles west of Moscow, stating:

"In five days of fighting on the Vyazma sector Gen. Boldin's Soviet forces have destroyed 220 enemy tanks, 140 trucks and have annihilated between 7,000 and 8,000 Germans."

But while the tremendous German drive involving some 3,000,000 men appeared at least temporarily stemmed, Moscow newspapers warned their readers to prepare for a life and death struggle in defense of the capital.

vote in the house," he said. "A lot of people will be surprised."

Sen. Connally (D) Tex., chairman of the senate foreign relations committee, foresaw an easy time in that body.

"I have been informed privately that there will be much less opposition than has been anticipated," he said.

Predicts Passage

Sen. Gillette (D) Ia., advocate of neutrality, conceded senate passage by a two to one majority.

"There will be the strongest sort of opposition to any change in the neutrality act," he said. "But as nearly as I can judge the senate will divide substantially as it did on the lend-lease bill."

The battle for ship arming opens Monday with hearings by the senate foreign affairs committee. Secretary of State Hull is slated to be the first witness.

Rep. Bloom (D) N. Y., chairman of the committee said he hopes the house will pass the measure next week, but some Republican committee members demanded at least a week's hearings.

The two ranking Republicans—Reps. Fish, N. Y., and Eaton, N. J. went over to the administration side and said they would support the bill. Thus, Rep. Tinkham (R) Mass., is expected to lead the opposition.

Secretary of the Navy Knox, Secretary of War Stimson, Gen. George C. Marshall, chief of staff of army, and Admiral Harold R. Stark, chief of naval operations, are scheduled to testify. Bloom indicated that the military chiefs may be heard behind closed doors.

The possibility that senate foes of the neutrality act may seek to expand the resolution after it passed the house, and wipe out the restrictions against American cargo ships taking arms direct to British ports, may affect the course of the battle.

NEW CRITICISM OF BRITISH WAR POLICY FLARES

(Continued From Page One)

Russia on June 22 we have not fought a single land battle, large or small, in any theatre of war. . . . This seems a monstrous misconception of our plain duty and a pathetic failure in military initiative.

Cummings branded a recent speech by Lord Halifax in the United States touching on the subject of continental invasion, as an "act of folly" which, he said, gave Chancellor Hitler an all-clear signal.

London evening newspapers kept up the barrage. The Evening Standard commented:

The new Chronicle states the British people are near to a mood of anger. We believe that is a plain statement of the fact.

"The British people wish to be convinced that their rulers understand. . . . We have reached the peak crisis of the war."

The Evening News thundered: "One thing the public will never forgive is any policy of wait and see."

NEW NON-DEFENSE BUILDING PLANS WILL BE HALTED

(Continued From Page One)

it will have to forego \$4,075,000,000 worth of new public works, postoffices, roads, office buildings, apartment houses, homes and river and harbor improvements originally planned.

To Carry Out Program

President Roosevelt's supply priorities and allocation board promulgated the new policy, apparently with White House approval. It ordered the O. P. M., through priorities powers, to carry out the program.

The order, which hit Washington like a thunderclap, provides that "no public or private construction projects which use critical materials such as steel, copper, brass, bronze, aluminum, etc., may be started during the emergency unless those projects are either necessary for direct national defense or are essential to the health and safety of the people."

M. W. Watson, president of the Associated General Contractors of America, charged that approximately 4,500,000 men will be thrown out of work directly and indirectly by the move, but the government insisted that it will affect only half a million men.

It was announced just as congress was considering a \$700,000,000 rivers and harbors bill, which carries funds for the St. Lawrence waterway, the Florida ship canal and projects in 40 states. Even if the measure is passed, projects approved by congress cannot be built unless the O. P. M. certifies them as vital to national defense or public health and safety.

Through priorities, the O. P. M. holds power of veto over all congressional mandated public works.

Statement Made

Apparently referring to the fact that many factories and small businesses firms are being forced to shut down because of lack of materials, the super defense board said:

"If factories are obliged to close because they cannot get these materials, there would be neither rhyme nor reason in permitting the use of those same materials to erect public works, new factories, office buildings or other structures unless it could be shown plainly that such construction is vital to the nation."

The O. P. M. was swamped with calls after the policy was disclosed. Officials promised that, in the case of construction already started and substantially completed, efforts will be made to get enough materials to finish the job. But new non-defense construction is out, they made it clear, and even congress cannot do anything about it.

O. P. M. statisticians estimated that \$11,200,000,000 worth of construction is being built this year, including \$300,000,000 in non-defense works. In 1942, they said, non-defense construction will be cut to \$2,225,000,000, practically all of it for

structures necessary for public health and safety. Defense construction this year is totalling about \$4,900,000,000 but will jump to \$6,275,000,000 next year, taking up part of the slack.

The net loss in employment in the construction field, it was added, will be about 500,000, but hope was expressed that those thrown into idleness could obtain defense jobs.

It was estimated that American home planners will be forced to forget about their plans to build between \$800,000,000 and \$1,000,000,000 worth of new residences next year. O. P. M. officials previously had ruled that defense houses must not cost more than \$6,000, and the new policy means that no homes costing more than that sum will be built at all next year.

The Parent Problem

By Garry C. Myers, Ph.D.

HELP CHILD LIKE TEACHER

A teacher of music in a certain college of education told me of a boy who in the public school had refused to try to sing until he reached the high school. There a girl classmate, whom he greatly admired, persuaded him to try and he won a prize as a baritone singer in his school. About the time he entered school his mother, it was found, had laughed at him when he tried to sing. He never had tried again until in adolescence a sweet girl persuaded him to try.

When I was a lad about thirteen I had a teacher in the country school to whom I took a strong personal dislike. I thought he wasn't fair. He would have our school sing often. To "spite" him I would keep silent. My dislike for him who sang well and who wanted us to sing kept me from trying to learn music although my sister and older brother used to beg me to sing with them.

Use Understanding
Such a small thing had large hazards for my future. How I regret today that I was so stubborn then as not to take advantage of my opportunities. I have a notion that the teacher should have been a little more skillful. Of course, he was a conscientious fellow, attempting to do what he thought was best, just as many of us conscientious parents, even when we try the hardest, sometimes make the gravest failures. Mere conscientiousness is not enough. We need to get more wisdom and, with wisdom, greater understanding of how the child feels and how to curb his feelings to cooperation.

Earlier I had another teacher whom I admired exceedingly. He made me like arithmetic and succeed in learning it. I like it to this day. That teacher doubtless was responsible for the hours and hours of struggle I have been willing to go through in researches in the learning and teaching of this subject, on which I have published a number of articles in scientific journals. With the help of Mrs. Myers I have even written a series of text-books on arithmetic. They may be no good, but my point is that the influence of one teacher upon me seems to have been very powerful. No doubt you could testify to similar experiences.

Parents Can Help

We parents can do a great deal to make our children like their teachers. They often will recite at home things they dislike at school and sometimes will complain about the teacher. At such times, where we are not wise, we may add a word of criticism about that teacher causing them to exaggerate their seeming faults and to acquire the habit of complaining. Before we know it our children will despise teachers, and even the subjects she teaches. If we were to be more sensible, were to keep quiet, or even drop a word of praise for her, we might do a world of good for our children and their success at school.

A selecting list of books on understanding children of various ages may be had by writing me at 235 E. 45th street, New York City, enclosing a self-addressed envelope with a three-cent stamp on it.

Solving Parent Problems

Q. Should a parent apologize to the child on discovering he had erred in rebuking or punishing this child?

A. Most certainly. Since practically every parent will make some such mistakes, and should apologize if he has a conscience, sense of justice, and respect for the sacredness of another's personality.

Just Folks

HUSBANDS.
It matters not the work we do.
Nor what we own of skill.
Our wives will often sadly view
Our careless labor still.

Nor prince nor president nor king
But what has habits strange,
To which through life he seems to cling
And which his wife would change.

"Ah," says the patient Mrs. Grand,
"He leaves his clothes about;
His shaving stuff upon the stand,
The dresser drawers pulled out!"

And Mrs. Great to her replies
In tones betokening shame:
"Although I wish 'twere otherwise,
My husband does the same."

"And mine does this and mine does that,"
All women folk relate.
Each husband, be he thin or fat,
Has some peculiar trait.

And when the circle meets to sew
And men are not about,
Our wives tell everything they know,
And turn us inside out.

The parson has his faults, I'm told,
The judge and doctor, too;
No man too young and none too old
Some folly to pursue.

But still in spite of everything,
Of blamish and of blame,
To us through life they fondly cling
And love us just the same.

Well, I once had a sweetheart, Tom, the dearest one on earth; And I was her true lover from the hour of my birth; We'd always been together; we had never been apart.

Dear Tom, I have no sweetheart now; I have a broken heart! Instead of sweet sixteen, she'd be just sixty-one today; There were no roses on her cheeks, her hair was silvery gray; Old age had dimmed her eye, but it had filled her heart with love.

After a time his second choice was gathered to her fathers and again the bereaved selected one of her hats in which she, like the first, had always looked "so sweet." This was placed beside the first hat.

Time healed the second wound and a third wife was introduced to his household. She, too, was inquisitive when she found the first wife's hat.

Question: When an organist of a church plays for a wedding should he be given a fee or a gift? If the former, how much? I would also like these same questions answered regarding the soloist?—Rene.

Answer: No doubt the organist and the soloist have regular fees which they charge for this service. Ask them what their fees are. Of course, if these two are friends of yours who do this for friend-ship sake, a gift, rather than a fee should be given.

TOO MUCH PEPPER

Several years ago in Burke county a great revival of religion was held in a church in the noted South Mountain section and among the converts was a well-known moonshiner who wanted to be at peace with the world and feel good toward everybody.

He was called on to pray one night shortly after his regeneration and proceeded to pray for everything in sight. Suddenly he thought of a poor widow, with several children, in the neighborhood who was reported to be in rather needy circumstances and dropping to his knees he began to pray for her.

"Oh Lord," said the converted one, send the widow a barrel of flour." "Amen," chimed in the congregation fervently.

"Oh Lord, send the widow a barrel of sugar." Again the "amens" were heard over the house.

The prayer proceeded with a request that the widow be provided with a barrel of meat, a barrel of coffee, and in fact just about everything that was supposed to come in barrels. At every pause, some one in the congregation would chime in "Amen," and finally the praying brother said: "Oh Lord, send the widow a barrel of pepper."

One enthusiastic scotchier of the prayer yelled "Amen" then suddenly realizing the significance of the request, "Oh hell, that's too damned much pepper."

New Tax Law Causes Public To Howl
Price Boost Exceeds Amount Of Tax
Consumer Frets The Bill Unjustly

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, Oct. 10.—Congress' governmental money-raising experts are beginning to get a powerful public reaction to the new tax law, effective since Oct. 1. It isn't a favorable one, either. Not that the levies provided for in the law itself are so much adversely criticized. It pretty generally is recognized that Uncle Sam has to have the money. The howl is over the extent to which the law has boosted prices, a great deal more than enough to cover the taxes decreed by it.

The average consumer undoubtedly knew that he'd have to foot the bill for Uncle Sam's requirements, but he obviously resents having to pay a lot more, too.

It's like this: Suppose the tax is so much per unit of something or per hogheadful, if it's a liquid. The government collects it on that basis. The producer pays exactly what's called for. Then he passes his stuff along to a wholesaler, taking on the amount that he'd paid, with perhaps a trifling added onto it. The wholesaler, in turn, transfers it to a retailer, also, most likely with a little additional takeoff. The retailer sells it over his counter to the ultimate consumer.

But the retailer doesn't do his selling by the ton or the hogheadful. He does it by the ounce or half pint or maybe just a glassful. These small measures proportion of the tax probably isn't more than 1.2 or 3 or possibly 6 or 7 cents per ounce or swig each. Such midday transactions in mere coppers are inconvenient. So instead of 1.23 or 6 or 7 cents per sale, a nickel or a dime gets itself tacked on.

Well, just one nickel or one dime doesn't amount to much, as a lone sum of money, but it may represent a heck of a stiff percentage of increase.

For instance, hiking the price of a 50-cent half pint of "licker" to 60 cents makes the stimulant cost 20 per cent more and a single slug of it, shot up from 15 to 20 cents is worse yet.

Such rates of increase, applied to a whole lot of items of merchandise, naturally sends the gross cost of living skyrocketing into the air.

Retailers are the boys I come principally into contact with, and the ones I know assure me that they're not the group who scoop in the nickels and dimes. Their story is that the extra-tax boosts are wished into prices higher up, by initial producers or wholesaling middlemen, they imply. As to that, I don't know, and doubtless it would take a congressional investigation, or some such thing, to find out.

The advance is noticeable to everyone. It apparently took the public a few days to appreciate how generally it was due to be spread around but it's manifest that it begins to appreciate it now, for every congressional mail is crammed with letters from his home folk, squawking over the swollen size of their bills.

Some of the economic theorists contend that it's a good thing that it'll force civilian buyers to cut down their purchases; that this will leave industry free to produce defense and lease-lend supplies; that normal demand, dammed up for the present, will burst into a post-emergency flood, thus preventing a business slump at that stage of the game.

Grim Outlook
Pessimists think that, however their notion is that today's taxation will have to be continued indefinitely; that post-emergency living costs will continue at top figures; that there'll be a slump because emergency production will be reduced to a minimum and that there won't be any of the anticipated epidemic of civilian buying to take up the slack.

In the meantime the retailing peewees' customers are pinched and economize all they can, which pinches the retailer in turn, and they both holler.

I incline to think that the retailer is truthful in asserting that he isn't pinched, and the consumer is truthful in asserting that he is. The mental odd coppers—that higher-ups are getting even. The retailer's like to keep his prices down to draw his trade. The higher-ups, if their civilian patronage is cut in upon, can turn to defense and lease-lend business for the time being. The little retailer is out on a limb.

The World and the Mud Puddles

WHAT IS WRONG.

Harvard University has been a great contributor to the intelligence of the New Deal. The President is a Harvard graduate. He also prepared for Harvard at Groton, a high-brow preparatory school, although a very good one. The President, in turn, looks to Harvard for many of his lieutenants. There is seemingly something very screwy about the education received abroad along the lines of political economy. Unquestionably, there is no "Billy" Sumner employed at Harvard.

Harvard has, however, a Professor, "Sumner" H. Slichter, who has been trying to pour water on the conflagration. He expressed some time ago the hope that the war emergency would counteract the urge to strike, which always becomes strong in periods of industrial activity, and which has become very strong in these United States, because of the indirect assistance given the racketeering leaders of Labor by the national Administration.

The hope of this Harvard Professor has not been realized, for according to figures just issued by the Federal Bureau of Labor Statistics, there were twenty-five hundred strikes in the first five months of 1941. The number of workers involved this year was 1,327,000, as compared with 273,000 in 1940. The total amount of man hours lost has been five times as large. These figures are all the more discouraging in view of the high level of wages obtained.

What is lacking? The National Administration has provided an elaborate system, climaxed in the NLMB (if you don't know, it is the National Labor Mediation Board) for the strikeless settlement of disputes. There are plenty of jobs and a great deal of pay for overtime work; inflation has not become very troublesome and there is supposed to be a desire to produce more and more goods.

What is the matter? Has the Wagner Labor Act aggravated the ailments which it was designed to cure, or are the labor racketeers inspired by a desire to wreck the Government and hand the nation over, body, soul and britches to the Communists?

What Noted People Say

(International News Service)

WASHINGTON—Mrs. Franklin D. Roosevelt contends that the United States has fallen down on the job as a home-maker.

"When times like the present come and we find many of our young men ineligible to defend their country because they have been fed improperly, we know we have fallen down on our job as home-makers."

LONDON—Herbert Morrison, British minister of Home Security, directs a warning to Americans: "Tragedy has befallen every nation which under-rated the menace which Hitlerism involves."

BOSTON—Douglas Miller, author and former American commercial attaché in Berlin, points out that it is time for appeasers and isolationists to quit arguing as the U.S. is already committed.

"The die is cast, the ball game is over and the isolationists are now playing in the hot-stove league, whether they know it or not."

Chest Workers Learn Much About Citizens

"There are very few jobs," said one of the Community Chest workers this morning, "that give a better opportunity to determine the character of your fellow-citizens than soliciting for Community Chest funds. I have worked on Chest drives year after year. I have solicited hundreds of citizens, and I have had to check over subscription lists containing probably thousands of names. The subscriptions that usually stick in the memory are those that are considerably less than would be expected of the individuals, such as one dollar gifts from industrial workmen, who are making a comfortable living; or ten dollar contributions from business or professional men, who are in more or less affluent circumstances."

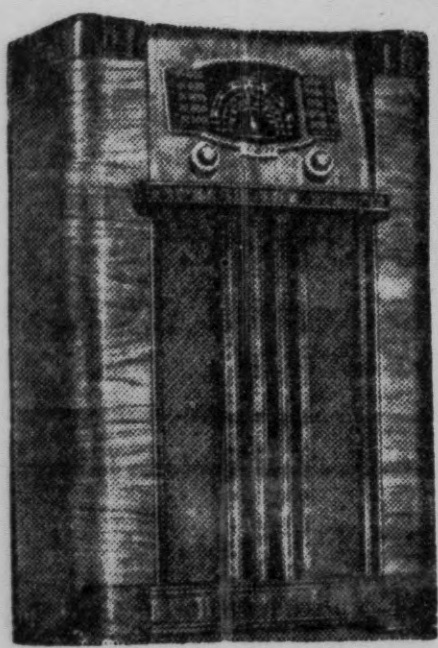

"They give to get rid of the solicitor, attempting to purchase immunity for the smallest possible amount. In many cases, one dollar contributions are generous, like the WPA worker last year who came to the Chest office and insisted on contributing a dollar even though he had barely enough to live on. And there's the type of citizen who is the joy of every solicitor, who thanks the worker for performing a service to the community, and makes a contribution which the solicitor knows is in keeping with his financial ability. Unfortunately, every solicitor gets the other kind—the ones who are too busy to talk,—come back later—as if the worker had no other demands upon his time. The

hope is frequently that by stalling, a contribution can be entirely evaded. Or there are those who are against some particular agency, and that is excuse enough to deny or reduce the aid to all of the agencies. The Chest worker learns to know the character of the citizens by the tactics they use to avoid a reasonable contribution. Many people fail to realize the sacrifice the Chest worker makes to help the annual drive. He gets nothing for his efforts, but frequently spends hours getting his or her cards covered. Small wonder that discourtesy or lack of consideration by the citizen causes resentment on the part of the worker. Every person in the community owes something to the Chest worker for the time and effort he puts forth in this community welfare drive. If this could be fully realized by all the people, the Chest workers task would be far pleasanter.

Helen Morgan Made Fortune

(International News Service)
CHICAGO, Oct. 10.—The details of Helen Morgan's career as the country's most beloved torch singer were fitted into a familiar pattern today. She made an estimated \$1,000,000 with her voice, but she died penniless.

Her \$527 hospital bill was paid by the Theater Authority, actors' charity agency, from contributions made by friends for the purpose. One actor gave \$200. The agency will also pay expenses on her funeral, to be held at 10 a. m. tomorrow at nearby Lagrange, Ill.

Some luxurious mementoes of the years of her triumphs, including a sable scarf and a silver fox coat, are supposed to remain as her estate.

During 16 years as a top-notch star, Miss Morgan made as high as \$3,500 a week singing in night clubs. She drew \$1,500 a week as the star of Ziegfeld's production of "Show Boat". As recently as 1939, she received \$2,500 a week for a Chicago appearance.

But she lived well and, her friends said, she helped many relatives and theatrical unfortunates. In her last illness she had no money to pay the hospital bill.

A star at 19, Miss Morgan was 37 when she died Wednesday of complications which set in after an operation for liver trouble. Hundreds of messages of condolence have been received by her mother, Mrs. Lulu Morgan of High Falls, N. Y., and her husband, Lloyd Johnson of Los Angeles.

Probe Crash Of Army Plane That Took Flier's Life

(International News Service)
PITTSBURGH, Oct. 10.—Government inspectors today examined the wreckage of a swift army P-39 pursuit plane which late yesterday plummeted into the Monongahela river at Courtney, taking the life of its pilot, Lieut. J. P. Lyons, of the 59th Pursuit Squadron.

The plane barely missed the towboat Donora before splashing into the river and immediately sinking to the bottom. Lieutenant Lyons was thrown clear of the plane by the impact and his parachute acted as a buoy until rivermen on the Donora reached him.

He was enroute from Patterson Field, near Dayton, O., to Mitchell Field, L. I., his base, army air officials at the Allegheny County Airport reported.

The plane struck the river just 50 feet behind the towboat. Augustine Palsonelli, who witnessed the accident, said: "It sounded like two box cars coming together."

PRE-TRIAL COURT SYSTEM PROVES HIGHLY EFFECTIVE

(International News Service)
CHICAGO, Oct. 10.—Less than one year's operation of the pre-trial court system, which attempt to settle cases through conciliation and agreement instead of by jury or other formal action, has convinced the municipal court of Chicago that the procedure speeds clearing of the court calendars and reduces expenses.

Because of the successful trial of the plan in Chicago a bill passed by the current Illinois Legislature makes pre-trial hearings applicable to all courts of the state, including the supreme court. If the governor signs the bill, Illinois will be the first state to have pre-trial courts throughout.

State Defense Warnings Given

Leaders Urge Public To Guard
Against "Invasion
Hysteria"

By LEONARD APPELBAUM
International News Service Staff
Correspondent

HARRISBURG, Oct. 10.—State defense leaders today urged the public to guard against "invasion hysteria" and to bend every effort to prevent industrial sabotage.

Residents of communities having defense-vital industries were implored by Dr. A. C. Marts, executive director of the state council of defense, to redouble their vigilance against saboteurs.

Dr. Marts added that while extensive plans were under way for air raid warnings, "we don't anticipate any immediate enemy aircraft overhead." One county in eastern Pennsylvania had reported on the plans for a survey of homes to which children might be evacuated.

"We're going to take steps to acquaint the people of Pennsylvania with the proper methods of combating fire and incendiary attacks so that if a real emergency should develop they can proceed effectively with pre-arranged plans," Dr. Marts said.

A series of meetings was planned to discuss civilian protection measures growing out of the air raid warning service being established in the eastern and central sections of the state, in cooperation with the U. S. army.

Plans were advanced for a county defense institute in nine counties beginning Oct. 20, when teams of four to six experts will instruct councils of defense and other committees on air raid warnings.

Movies Get Large Share Of Money Spent In U. S. On Amusement In Year

(International News Service)
WASHINGTON, Oct. 10. — Base-
ball may be the national game, but
it is not one of the big money items
on the United States amusement
bill of fare, the census bureau dis-
closed today.

Releasing figures for 1939, the
bureau said that Mr. and Mrs. J.
Q. Public put more of their dough
on the line for the movies than any
other amusement. The cash intake
of 14,115 moving picture houses ex-
ceeded \$670,000,000 or about \$20 per
family.

Gus Fan paid out only \$24,940,000
to the 1939 professional baseball
parks in 1939. Box office receipts at
the five games of the world series
between the New York Yankees and
dem Bums of Brooklyn equalled
approximately 4 per cent of the
receipts for baseball in a normal
year, the bureau said.

The public also dug two-thirds
deeper in its jeans to either bowl
or shoot a game of billiards or pool,
than it did to watch the diamond

heroes or to toss bottles at the um-
pire. These amusements amounted
to \$87,450,000, practically double
those of five years previous.

Horse and dog race tracks, num-
bering only 56, took in \$43,507,000,
almost double baseball receipts.
Legitimate theaters and opera took
in \$38,461,000, nearly \$8,000,000 more
than baseball.

Surprising as it may seem, the
bureau said, golf is probably a bigger
game than baseball if club member-
ship dues are included. Golf players
spend nearly \$16,000,000 a year for
their equipment, and this is quoted
at factory and not retail prices.

The year 1941 may establish a new
record in amusements receipts, the
bureau said, based on the cash per-
formance of the world series, the
gate of more than \$600,000 for the
Louis-Nova fight and the heavy at-
tendance at the openings of the pro-
fessional football season. The cen-
sus record of 1939 showed such re-
ceipts to be approximately \$1,000,-
000,000 annually.

Amateur Radio Is Used To Announce Defense Exhibits

Messages Announcing Two-
Day Canton, O., Airplane
Show Received Here

Two demonstrations are going on
this week to show the helpfulness of
civilian radio operators and private
airplane pilots, in the defense of
our country.

At 8:30 o'clock Thursday night,
Arch Foster, of R. D. 2, operator of
amateur radio station W8RBI,
received a message from amateur
station W9PSP at Chicago, an-
nouncing a two day defense exhibit
and demonstration at the Canton,
O. Airport.

The message received here was di-
rected to all pilots and all airports,
and invited the pilots to fly to the
Canton port on Saturday and Sun-
day to take part in this exhibit,
which is being held for the purpose
of showing the part private planes
play in national defense.

According to Foster, this an-
nouncement message is being han-
dled only by amateur radio men in
all parts of the country, and the
success of the Canton program will
indicate the efficiency of the am-
ateur network in the United States.
No other announcement of the dem-
onstration is being made.

Pay Increase For Workers On W. P. A.

(International News Service)
HARRISBURG, Oct. 10.—Approx-
imately 60,000 W. P. A. workers in
Pennsylvania stand to receive an
additional \$3,744,000 a year in wages
on the basis of the pay increase an-
nounced by National W. P. A. Ad-
ministrator Howard O. Hunter, it
was estimated here today.

State W. P. A. officials believed
that fewer than 10,000 of the 99,332
persons on the W. P. A. rolls in
Pennsylvania would fail to benefit
from the \$5.20 a month increase
granted to compensate for the rising
cost of living. The increase covers
all project workers making less than
\$90 a month. A total of 3,153 su-
pervisory officials and 1,200 admin-
istrative personnel are not affected
in announcing the 8.5 per cent
increase. Hunter indicated also he
was working on an increase for
workers making more than \$90 a
month.

Presidents Message Draws Berlin Fire

(International News Service)
BERLIN, Oct. 10. — President
Roosevelt's message to the American
congress regarding armament of
merchant ships drew the fire of a
Wilhelmstrasse spokesman today.
"Roosevelt is getting old," the
spokesman commented.

He said the President's message
was characteristic of the "war-
hungry President, who is trying to
hide the fact that he is seeking war
by using arguments badly thought
out by an aging man, who offers
the most illogical conclusions."

Would Put Signs At Every Corner

TITUSVILLE, Oct. 10. — Mayor
Peter J. Hoehn of Titusville wants
to end speeding and reckless driving
and has advocated the purchase of
a patrol car or motorcycle to roam
the business district at will and a
blanket of Stop signs making it al-
most a virtual necessity to stop at
every street corner.

Acronyx—that's where the shoe
pinches.

An acronyx is an ingrowing toe-
nail.

It occurs on either side of the
large toe or second toe.

Many persons trim their toenails
too close.

The exposed nail bed is tender
and may become infected.

Pus forms, granulation tissue de-
velops, infection starts.

The swelling increases and more
pain follows.

An ingrown toenail can incapaci-
tate a person for weeks.

Various treatments are used for
this condition.

Some doctors resort to a slight
operation.

Learn to cut the toenails cor-
rectly.

News And Views From Pennsylvania Capital

(International News Service)
HARRISBURG, Oct. 10.—The legislature may eventually be asked to do something about the office of tax collector, because it appears this is one public job that in many instances finds no takers. The remuneration in many districts is so small that no one will run for the office. In some instances, where there have been no candidates, persons who have had their names written in and were elected have declined to serve. In many districts the county treasurers have been forced to step in and collect the taxes.

A good example of why the office of tax collector is not up to par is furnished in Dauphin county. In Williams township the tax collector received \$134.83 last year. In Royaltown borough there has been no tax collector for the past five years. The last one in 1935, received \$43.19. In Jefferson township the tax collector must furnish bond, which is an expense. The county pays part of his postage bill.

State WPA Administrator Philip Mathews reports that the installation of new machinery is throwing some men out of work in Pennsylvania. In one instance, he said, 300 men lost their jobs. On the other hand, he reported, the WPA was able to close down at least one project because of the need for common laborers. Commenting on reports that there was a scarcity of common laborers in certain districts, Mathews said: "Let them come to us. We've got the men they need."

Even the chickens in Pennsylvania have been asked to go "all out" for national defense and take an active part in the aid-to-Britain program. The federal government has asked and the Pennsylvania Hen Producers Association has agreed to abolish the seasonal hatching program and place it on a 12 months basis. The reason?

The more chickens, the more eggs; and the more eggs, the more food for hungry people abroad. The producers met recently at Harrisburg to discuss the program.

Young Republican leaders are again demanding "adequate representation of youth in public life" and the request is being directed at Republican party leaders. The demand is made by Frank C. Hilton of Wyomissing, head of the Young Republicans of Pennsylvania. Although the Young Republicans have not obtained much consideration from the older group in the way of public office and patronage, they have tended to operate along the same general lines as the state Republican organization. They will hold their state convention in Harrisburg on October 17.

State Minerals Aiding Defense

Pennsylvania Steps Up Production Of Minerals Vitality Needed Now

(International News Service)
HARRISBURG, Oct. 10.—Pennsylvania during the past year has considerably stepped up its output of mineral products for use in defense industries. Commerce Secretary Mark S. James was advised by the U. S. Bureau of Mines.

The Keystone state continues to maintain its leadership in the production of silica sand, ground stone and iron ore, and produces many important metals, such as the increasingly valuable alloys of beryllium.

Uses of this metal are rapidly expanding in the production of non-magnetic tools and critical parts for airplane engines, James explained. Beralite, a beryllium and aluminum alloy, lighter than aluminum and as strong as high grade steel, is being studied for use in the airplane industry.

In the emergency, Pennsylvania is also increasing production of slate, ferro alloys, pig iron, steel, stone, cement, clay, coal, coke, the bureau of mines reported. The state ranks second in its output of clay products, lime and sand and gravel.

La Guardia Seeks Authority To Buy Gas Mask Supply

(International News Service)
WASHINGTON, Oct. 10.—Mayor F. H. La Guardia of New York, director of Civilian Defense, asked congress for funds to purchase 50,000 gas masks for civilians as part of his plan to protect American cities from possible air raids "so we can snap into action if it is necessary."

La Guardia also requested legislation to permit his office to purchase medical supplies, fire-fighting equipment for protection against incendiary bombs, and facilities for air raid wardens.

California Tourist Praises Pennsylvania

HARRISBURG, Oct. 10.—One California motorist after a trip of 11,000 miles during the summer that took her from the Pacific to the Atlantic and also into Canada and Mexico was so pleased at the treatment received in Pennsylvania that she wrote the department of highways about it.

The letter was received by the district engineer at Scranton. The family made the trip in a trailer.

"We heard that Pennsylvania was a 'tough' state and un hospitable to trailers," the letter said. "We had our house trailer with us and were surprised and pleased with our reception."

"We have told many people of the beauty, good roads and real hospitality of your state, and hope to go there again."

The writer also expressed her pleasure at the "courteous reception" accorded her at the state border when welcomed by a Pennsylvania Motor policeman.

SAN ANTONIO, Tex., June 16.—An altitude of 15 feet used to be George Varoff's record—and it was a world's record at that. Now 1,590

Flying Reporter To Tell Executives Club Of Conditions.

Up-To-Minute Information On
Labor, Industry And Re-
armament Will Be Heard

Dr. Henry Knight Miller, who has just concluded a survey of actual labor and production conditions in the centers of defense industry will address the New Castle Executives Club at its first dinner meeting of the fall season at The Castleton Friday evening, October 17.

Dr. Miller, who has just completed a trip through the nation by plane, will present information which will be of interest to every member of the club.

Last year, the Associated Executive Clubs sent Major Thomas A. B. Ditton to get a report on the new Atlantic bases, which proved most popular, and Dr. Miller address will be even more timely.

Dr. Miller's contact with labor and management as consultant of corporations on labor and production problems, and as director of a "job clinic" in New York, made him particularly suited for this assignment. In addition, he has a record as a brilliant speaker, and is thus equipped to translate the information he secured in a interesting manner.

Social Agency Council Meets

Needs Of City Discussed At
Meeting Of Representatives
Of All Agencies

The first fall meeting of the Council of Social Agencies under the leadership of Dr. G. S. Bennett, took place at the Chapter House of the American Red Cross on Wednesday evening.

Dr. Bennett outlined several important programs he felt this council should study throughout the winter months. One of the questions brought before the council was the need of public health nursing service in the county and city.

The second question he proposed as the program advanced in the council meetings, was the recreational problem for the youth of the community.

John Finnessy, executive scout director, invited the council to meet at the Boy Scouts headquarters on Highland avenue the third Thursday of November.

The council voted to meet every fourth Thursday of the month but the November meeting was changed due to the Thanksgiving holiday.

Mayor Hails Chest, Asks All 'Do Part'

Mayne Points Out Pledges
Will 'Continue Splendid
Agency Work'

MAYOR CHARLES B. MAYNE

Mayor Charles B. Mayne, in a letter released at City Hall, today called upon the citizens to "give generously" to the 1941 Community Chest.

The head of the city government wrote the public at large: "The time has arrived when the Community Chest will again begin its activities for another year. I wish to appeal to the citizens of New Castle for their whole hearted support."

Every community has its welfare agencies and the need of such is quite evident in our city. The management of this drive is in very competent hands and deserves the confidence of all.

May I ask that each and every one of you sincerely do your share in helping meet this responsibility. All contributions are acceptable but may yours be generous toward this very worthy cause. Your support during this period will insure a continuation of relief of those victims less fortunate than we.

We cannot deny such an appeal and the aid rendered those needing help has certainly proved its worth. Sincerely,

CHAS. B. MAYNE,
Mayor.

First Aid Group Plans Meetings

Meeting In Chapter House
Of Red Cross

On Tuesday evening, October 7, Mr. Harry J. Cullford, chairman, First Aid, gave a supper in the Chapter House for all of the Lawrence County First Aid instructors. Plans were made for a station to be maintained at the Bell Telephone Rally. The persons in charge of this station were: Mrs. Anne Castele, Mrs. Virginia Brown and Mrs. Robert Peterson and Elmer T. Tinsman.

Be Optimistic But Up-To-Date Babson Urges On Public

By ROGER W. BABSON
(Copyright—1941—Publishers Financial
Bureau, Inc.)

NEW YORK CITY, Oct. 10.—Next to truth, the greatest need today is for faith—faith in God, faith in America and faith in our fellow men. On the other hand, the

BABSON
The Latest "Bad Wolf"

greatest danger lies with fear—fear of death, fear of sacrifice, and fear of losses of various kinds. Yet, there are many columnists, authors, and even political leaders who make their livings crying "Wolf! Wolf!" when there is no wolf.

Even radicals are now pretty much agreed that our generation has nothing to fear from Socialism or Communism. They have entirely changed their tune as to this fear. Karl Marx is no longer their idol and they have lost faith in the proletariat. They intend to talk of a "Managerial Revolution".

They still pretend to believe that most stocks and bonds will become worthless through state competition—that we are entering an era when the government will become the owner of all income-producing property and will operate it long technical lines. They say that the "managers" thereof will be the aristocracy of the nation, taking the place of bankers and capitalists in general.

Managerial Revolutions Have Always Existed

To some extent, these calamity howlers are doing good in causing us to take out "insurance" in the form of vocational education for our children! Wise parents are calling such pessimistic talk to their children's attention so that the young people will not depend upon what they inherit, but will have a profession, trade or job of their own. So much, so good.

The college professors who are preaching the elimination of the capitalist class are doubtless right in their forecast that the government will gradually take over more and more industries. This, however, is nothing new. It has always been going on. Armies, navies, highways, postal service, etc., all started as private enterprises. This process will doubtless be speeded up to include armament factories, public utilities, railroads, milk distribution, bread bakeries and certain of the great producers of raw materials.

Keep Your Investment Up-To-Date

Here is what the pessimists overlook: For every old industry any government has taken over, two new industries have sprung up in its place. This, moreover, applies to Russia and Germany as well as to

the United States and Canada. Initiative, enterprise and invention grow best in a free soil apart from government ownership or management. As long as the English race is in economic competition with Europeans or Asiatics, you may be sure that private enterprise will be encouraged in the United States and Canada.

This means that businessmen and investors who keep ahead of the procession have nothing to fear from the New Deal. Those who recognize that the only thing really "permanent" is change and who wisely shift their investments accordingly, should continue to prosper. The loyal investor, the self-satisfied businessman, and the so-called conservative banker who worship "bond ratings" are the ones

who will suffer during the changes ahead of us.

What After the War?

Most readers are asking what will happen after World War II. Will there be a great business slump? Will revolutions follow? The current low stock market prices are due—not to present conditions—but to fear of what will happen a few years hence.

Of course, one should know how long the war is to last before answering these questions. The after-effects of a long war would be more serious than if it should end in the winter of 1942-43. But, the real answer depends upon to what extent employers, wage-workers and investors are willing to adapt themselves voluntarily to the changed conditions. The stagecoach owners and drivers of 100 years ago fought the railroads, went broke; but those who sold out and re-invested in railroad securities became very prosperous.

Some Illustrations

This is one reason why I prefer the chemical companies rather than the "steels"—prefer the motor coach companies rather than the "rails"—and prefer the peace stocks rather than the "war-babies". I prefer to have the bonds of some almost unknown little town run by good people than the popular bonds of great cities which are run by grafters.

Recognize CHANGE, insist upon GROWTH, and align yourself with

active people of CHARACTER and you have nothing to fear. The world is constantly getting better; while more opportunities exist today than ever for those who study, pray, work, save and venture. Beware of "cobwebs" in your home, business, church or safe deposit box!

Y. W. C. A. Shares Funds Of Community Chest

Y. W. C. A. BUILDING

Mary was a file clerk in a large office, earning fifteen dollars a week. She could work up to be the head of the department, but the company always brought in someone from the outside for that job, so she was in a blind alley of fear lest she should lose her job. She wondered if she

should get more training and try to find other work.

The first thing that she discovered after she joined a club at the Y. W. C. A. was that half the girls in the group were in jobs like hers, so she lost her sense of individual failure. She found satisfaction outside her job in the crafts group where she demonstrated real skill. She joined the "Speak-Easy" class in which every member participated by giving talks to the group. Here she learned to feel a sense of security and poise. She spent week-ends at the Y. W. C. A. camp. She shared book reviews with the other girls. All these activities with girls in other clubs gave her a much wider horizon, more friends, and the satisfaction of having an opportunity for real service in her community.

This is only one of many examples of what the Y. W. C. A. does for the girls in New Castle. Many belong to clubs at the Y who have no other activities outside their homes or their work. The Y. W. C. A. helps girls to live democratically in their clubs and then transfer that to their living as citizens of this community. Your donations to the Community Chest helps the Young Women's Christian Association to help girls become better citizens.

Reject Proposal For Settlement On Oil Seizures

(International News Service)
 NEW YORK, Oct. 10.—A proposal by the Mexican government to settle the controversy stemming from expropriation of American and British oil properties by Mexico in 1938 has been rejected by the Standard Oil Co., of New Jersey, according to an announcement today of W. S. Farish, company president.

The proposal was part of a comprehensive economic and currency stabilization agreement announced Monday by Secretary of the Treasury Morgenthau. The agreement included provision for "token" payment of \$9,000,000 to American oil companies whose property had been confiscated. Under the plan the money would be held in escrow until value of the property was established by the Mexican government and the oil companies.

The valuation would not include the value of oil deposits, it was said, and therefore the proposal was unacceptable to the firm.

Two Drivers Are Facing Charges

Cruiser car patrolmen Thompson and Haring last night arrested two motorists on charges of operating motor vehicles while intoxicated and both will be charged with the offense before Alderman James C. Brice today. Chief of police Willis G. McMullen asserted he would prefer the charges.

The officers, advised that an auto had been struck by another car in Croton avenue near Ray street and at Croton avenue and Duquesne street arrested William D. Nickle of Neshannock avenue at 10:35 p. m. In police court this morning Mayor Charles B. Mayne instructed Chief of police Willis G. McMullen to prefer the charges against the drivers.

Ellwood High Plays Monaca Here Tonight

ELLWOOD CITY, Oct. 10.—Football has reached the midway mark in the Ellwood City high school football schedule and a glance down the multi-colored corridors of October and November show that beginning with tonight's game with Monaca High at Lincoln field, the Wolverines will face in weekly succession five powerful Beaver Valley schools, one of which will emerge as Beaver Valley champions. And local fans are keeping their fingers crossed that Ellwood may be the lucky eleven.

There is no "breather" ahead for the Croft-Gillis machine and when they line up at 7:30 o'clock tonight, they will be facing the team that annually shows the most fight of any Beaver Valley eleven.

With the confidence giving taste of victory gained from their past two games, the Monaca crew will be out to conquer the Wolverines. A trifle sad and a trifle tarnished by their game with Butler, the Blue and White are expected to show a superior brand of ball playing in an effort to regain lost prestige.

After coaching trouble at the beginning of the season, Monaca has emerged with an unusually fast team this year. Croft regards it as the best tackling team in the valley, and he is much concerned over Ellwood's prospects of stopping Monaca's assortment of forward-laterals in which two big wingmen, Dietrich and Ofcharka, are key figures. Last year, Ellwood defeated Monaca, 13-7.

For this and other feats of endurance, he was presented with the Congressional medal. It is the real, human story of the survivor of one of the greatest expeditions and is one that many will want to hear.

SCARLET FEVER TEST IS GIVEN TO PUPILS

ELLWOOD CITY, Oct. 10.—Through the Children's Hospital in Pittsburgh, the Ellwood school was able to offer the Dick Test for Scarlet Fever, and immunization treatment, Supt. Bell reported to the Board of Education last night. The parents of 153 children requested this service. Over 1500 children were given the Dick Test. About 66 per cent of them were found to be immune from Scarlet Fever. The test showed that the remaining 33 per cent were subject to Fever. These pupils have been having a series of four immunization injections. The final injection will be given Monday of next week. This is a service that few schools outside of Allegheny County have had the privilege of receiving. Miss Shrimp and the Medical Department are to be commended on again pioneering in the field of school health and additional service to school patrons.

Sleighter Named Council Member

Dambach Elected Fire Department Driver By Borough Council

PARKING METER BIDS ARE ASKED

ELLWOOD CITY, Oct. 10.—Election of a councilman for fourth ward and a driver for the fire department, and an agreement to advertise for parking meter bids were the main business matters transacted by the Ellwood City borough council at the regular October meeting held last night.

Thomas Sleighter was elected councilman of fourth ward following the resignation of C. L. Bauder, who has moved from the district. There are two years of the unexpired term remaining. Herbert Habert was originally elected to the office, and after serving a few months moved to South Bend. Bauder was then elected. Sleighter was nominated by Joseph McCandless, the other fourth ward representative, and the name of Ralph Moore was offered by H. E. Frank Bieri, the vote being 5 to 4. Albert Starr, James Casey and Willard Bleyer served as tellers. Sleighter will serve on the finance, police and communications committee until council is re-organized in January.

Fire Department Driver
Robert C. Dambach of Franklin avenue was unanimously elected as a driver of the fire department, succeeding Ralph L. White, who recently died. Dambach will be paid \$152 for the first six months and then increased to \$164.

J. C. Boyd presented the resolution that bids be advertised for parking meters for Lawrence avenue, Fourth to Seventh streets, Fifth street and Sixth street. Harry Caplan objected, saying that it was a "bad idea." The matter has been up for consideration several previous times. The vote in favor was 5 to 4 by Boyd, Hill, McCandless, Menace and Curry voting affirmatively and Bieri, Caplan, Lanzi and Greenham voting negatively.

Once again a resolution was passed that council advertise for bids for two-way radio equipment for two cars with central equipment. Caplan, Curry and Menace voted against the motion. Nick Lanzi offered the motion prefacing his remarks with praise of the police department for recent action. "When we bought a sub-machine gun six months ago, everybody said what would Ellwood do with a machine gun? Well, you know now how nice it is to be prepared," Lanzi said. Boyd said he would favor the action after it was placed in next year's budget. The main contention among members has been that one group wants to buy the radio equipment and still maintain the present police force, and the other group wants to buy the equipment and decrease the force.

Asks Street Improvements
Communications from Willard Bleyer, housing manager, for improvement of Pershing and Loops streets were referred to the street committee. A request from Howard Jones, merchants division president, that the borough provide an orchestra platform for the Hallowe'en street dance was approved with the

Ellwood Juniors Top East Liverpool

Score For Locals In 27-0 Game At Lincoln Field

ELLWOOD CITY, Oct. 10.—It will take more than a tricky military huddle to stop the Ellwood Junior high football team, it was revealed Thursday afternoon at Lincoln field when they shellacked a big, reputedly good East Liverpool, O. Junior high eleven by a 27 to 0 score.

Ellwood scored in a first quarter on a beautiful triple reverse play from D'Amico to Huzenic, to Heinz, who ran for 21 yards to score. D'Amico hit the line for the extra point.

In the second period, Pelloni blocked an East Liverpool punt, caught it in the air and scampered 30 yards to glory land. Again D'Amico added the extra point.

After a 36 yard march, the Barry crew scored again early in the third period with Glogowski carrying the ball over from the 9 yard marker, finding his opening through right tackle. A pass from Tilla to Huzenic failed for the extra point. Only minutes later, Glogowski recovered a fumble on Ellwood's 40 and the Junior Wolverines were off again with Glogowski ciding left end for the final score. Tilla's pass to Huzenic was good this time and Ellwood was ahead 27-0. For the remaining fourth period, Coach Harold Barry sent every one of the scrubs into the game.

Military Funeral For Michael Perry

ELLWOOD CITY, Oct. 10.—Full military funeral rites were conducted on Thursday morning at 10 a. m. from the B. V. M. church for Michael Perry, son of Michael Perry, Sr., of South Second street, who was killed in an automobile accident near Fort Belvoir, Va., on Saturday evening.

S. army soldiers together with members of the American Legion post and the Veterans of Foreign Wars post served as escorts of honor, including a color guard, buglers, firing squad and honor guard. The casket covered with an American flag was surrounded by dozens of beautiful floral tributes. It was one of the largest funerals ever held in the city.

Interment was made in Locust Grove cemetery with cousins of the deceased serving as pallbearers. They were: Nicholas and Louis Rossi, Nicholas and Michael LeCava and John and Charles Navolio.

More than 100 persons took part in the reception and enjoyed the fine evening program. Mrs. C. H. Clark entertained during the hours with piano selections and served as accompanist for the various parts of the program. Herbert Mullen opened the program with several accordion numbers.

"Cynthia Whiffley", monosketch, was presented in an entertaining fashion by Miss Irene Liversage.

Miss Thelma Bumbaugh served as narrator for an interesting feature, the presentation of famous masterpieces. As the curtains were opened on each beautifully posed picture, Miss Bumbaugh told of the history of the painting, a few facts about the painter and the present location of the original.

The following persons took part and depicted these well-known masterpieces:

"Rock of Ages"—Delphine Jones
"Song of the Lark"—Betty Marshall
"Hope"—Ann Evans

Central Christian Church Homecoming To Be Held Sunday

South Side Church Plans Special
Rally Day And Home-
coming Services For
October 12

Central Christian church, located
at the corner of Pennsylvania and
Long avenues, will have its annual
Bible school Rally Day and church
Homecoming this Sunday, October
12, with several services being ar-
ranged for the day.

Special recognition of teachers will
take place in the Rally Day service
to be held at 9:45 a. m., the Bible
school hour.

At the morning service, 10:45
o'clock, the Rev. Thomas Fletcher,
missionary in the Erie regions of
Pennsylvania, will speak in connec-
tion with the Emergency Million
Campaign of the Disciples of Christ.
Families and friends of the church
will have dinner at 12:15 in the
church, and the annual homecoming
service will be at 2 o'clock, at which
time there will be out of town speak-
ers and a presentation of the history

of the church. Several former pas-
tors are expected to attend.
The regular services are being
planned for Sunday evening with
the high school and senior Chris-
tian Endeavor groups to meet at 6:30
o'clock. The pastor, the Rev. Sidney
K. Bliss, will continue his series of
sermons on "Studies in the Book of
Revelation" at the evening service,
7:30 o'clock, when he will preach on
the thirteenth and fourteenth chap-
ters of the book.

Beaver Falls Plant Workers Remain Idle

(International News Service)
BEAVER FALLS, Pa., Oct. 10.—
Some 2,800 workers remained idle
today in an outlast strike involving
75 cranes at the Babcock and
Wilcox Tube Company plant here.
Joseph Timko, CIO-Steel Workers
organizing committee sub-regional
director, said no strikeorder had been
issued in a dispute over wage in-
crease demands.

A walkout of early night crew
men Wednesday and continued
refusal of the operators to return to
work was blamed for the complete
plant shutdown tying up production
of vital navy department orders
according to company spokesmen.

Increase demands presented by the
SWOC grievance committee through
procedure established in an execu-
tive bargaining contract resulted in
a company rejection on the basis
that "our plant is in line with rates
paid in the district." Timko blamed
the walkout on confusion started
by non-union members.

WOMAN INJURED IN FALL AT HOME

Mrs. Henry Walters, of 107 North
Crawford avenue is in a serious con-
dition in the Jameson Memorial
hospital, with injuries received from
a fall at her home, Thursday aft-
ernoon.

In addition to a broken right leg
and fractured right arm, Mrs. Wal-
ters is suffering with internal in-
juries.

When the next election draws
near, Roosevelt can make votes by
correcting the mistakes of this
administration.

Former Senator Holt Says U. S. Shared Plans

(International News Service)
NEW YORK, Oct. 10.—Former U.
S. Senator Rush D. Holt of West
Virginia today charged that the
American government played an im-
portant behind the scenes role in
the coupe d'etat in Panama.

Here to address a meeting of the
America First committee, the for-
mer senator said the government
had acted in contravention of its
own good neighbor policy.

"Time will record that the United
States had a hand in the plot to
overthrow the Panama government
of Arnulfo Arias," he said. "That
is not exactly good neighbor policy.
I look for the U. S. government to
overthrow any South American gov-
ernment that stands in the way of
its foreign policy."

As we understand the Nazi charge,
Argentina is guilty of charging the
German ambassador with what he
did.

Even a senator is a shyster when
he criticizes an official course he
also would follow if he had the
responsibility.

THERE IS GOLD IN PENNSYLVANIA HILLS

(International News Service)
HARRISBURG--That's gold in them thar Pennsylvania hills. The Keystone state's production of gold in 1940, while only amounting to \$64,400, was greater than that of any state east of the Rockies, the Commerce department announced.

Few Pennsylvanians are aware that among the great variety of minerals and metal products produced in this state there are both gold and silver, it was said.

New Castle High Red Hurricane Gunning For 19th Straight Win Saturday

McKEESPORT MAY PROVE TOUGH FOE

Anxious to keep its winning streak of 18 straight games intact, a determined New Castle Red Hurricane football team will invade McKeesport on Saturday afternoon for its third class AA battle and the sixth of the current season. The kickoff tomorrow is set for two o'clock.

New Castle and McKeesport, since grid relations were started, back in 1917, have met five times, the locals winning four and the Tigers one, back in 1931, by a 7 to 6 score. In the five games played New Castle has tallied 85 points, to 19 for the Tigers. Last year at Taggart stadium the Red Hurricane team won, 34 to 12.

Two on Injured List

Two doubtful New Castle starters on Saturday are John "Big Train" Zubkowsky, the left end, and John Masters, the left guard. Both boys have injured shoulders. Young and Ryan will probably be the replacements at the two spots. The New Castle team ended its heavy training on Thursday afternoon and will taper off today with a light signal drill. The team leaves the stadium on Saturday morning at 8:30 o'clock by bus for McKeesport.

If New Castle can get by this big Tiger team tomorrow, they will only have Washington and Scott High left in class AA competition. New Castle hopes for an undefeated double A season.

HERE AND THERE IN SPORTS LAND

Jockey Alfred Robertson, the veteran Scotch riding star, made a new record yesterday at Jamaica. He booted home six winners on a seven-race card. The records show several other jockeys have turned a similar feat but this was the second time Robertson turned the trick. The first time he performed the feat was at Havana, in February, 1928, which was his first year in the saddle.

Several local amateur boxers, including Baby Lesure and Gusio Filizena have been matched for bouts on the card to be presented by Alvie Miller in the 37th Division armory, Youngstown, October 16. Russ Baxter will not be able to box because of a bad cut on the chin sustained Tuesday night.

Although the World Series has not yet gathered dust, Lawton Carver of the I.N.S. has selected the Yankees to win the American league flag again. Thirty thousand spectators are expected at the Temple Georgetown game in Philadelphia tonight.

Harry Pitcher, manager of Ossie Harris, colored fighter of Pittsburgh, has refused to send Ossie against Tony Zale, N.B.A. middleweight champion, a second time. Ossie weighs only 154. Johnny Como, amateur who boxed here Tuesday, is slated to become a Fritzie Zivic sparring mate, according to reports.

Throughout the present week Coach Buff Donelli has been working the Pittsburgh Steelers for endurance. They meet the Washington Redskins Sunday. Joe Hoague, former fullback of Colgate will buck the line. The Steelers hope to turn in their first National league win of the season.

Washington High Defeats Farrell

Albert Knight Tallies Two Touchdowns, Clark One In 19 To 6 Victory

With Albert Knight, spearheading the Washington high offense the North Hillers on Thursday afternoon defeated a scrappy Farrell Junior high team at Farrell 19 to 6.

Farrell tallied first after recovering a Washington high fumble, the Farrell boys marched down the field for some 50 yards and Smith tallied standing up. The extra point was blocked.

Knight Goes Over
Knight rang up the first Washington touchdown on a nice run five plays after the North Hillers had received the kickoff. The extra-point was blocked. The first period ended 6-6.

Washington scored again in the second period with Clark the big fullback going over after a steady drive down the field. Knight converted the extra point. The first half ended with Washington leading 13 to 6.

In the third period Knight tallied his second marker on a dash around right end for 50 yards. Knight failed to convert the extra point. The Washington second team played the biggest part of the fourth period and looked very good. Shaffer and Gunn did good work on the line for the Presidents Smith was the best in the Farrell backfield.

In first downs the Washington team led 15 to 6. Next Thursday the Washington team will play the Sharon Junior high team at the Washington high field at 3:30 o'clock.

Title Holders Give Promoter Bad Headache

By JACK MAHON
International News Service Sports Writer

NEW YORK, Oct. 10.—Boxing Promoter Mike Jacobs has a headache. The No. 1 mitt monopolist of the land awakened today to find himself with two useless champions. Mike will have to find, within the next few days, (1) A match to substitute for the lightweight title battle between Champion Lew Jenkins and Sammy Angott, scheduled for the Garden here Oct. 31, and another for a middleweight title brawl, booked for the same spot November 21.

Soose Getting Big
Today it was reported Lew was supposedly suffering from a fractured vertebra, bursts in the right shoulder, and a fractured left rib. All supposedly were allegedly sustained in a motorcycle accident three weeks ago. Just why such injuries escaped the eye of the examining physician at the weigh-in for the bout with Red Cochrane will forever remain one of the lovable mysteries of the very mysterious fight racket. Lou made a sorry showing.

Jacobs has November 21 booked for Billy Soose, the New York-recognized world's middleweight champion, to lay his title on the line against Ken Overlin. Soose won the title from Ken here last summer on a very highly disputed decision and hasn't exactly set the world on fire since. The pair are supposed to meet in a return match, but it probably won't come off because Soose is taking on weight rapidly.

New Castle Club To Shoot Warren

New Castle Rifle club will have its first home shoot in the 1941-42 Penn-Ohio league tonight at 7:30 o'clock with the Warren, O. rifle club furnishing the opposition.

The local rifle experts got off to a fine start in the league last Friday night, trimming Youngstown's Maioning Rifle club with Mowry high man.

The New Castle Rifle club, one of the finest in this part of the country, will make a determined effort to win the loop championship again this year, having held the title for many years.

The real name of the motion picture actor, Paul Muni, is Muni Wisenfreund.

HUTCH HARD WORKER

BUFFALO—Freddy Hutchinson was the work horse of the International League during the 1941 season. The Tiger farmhand, who swirled for Buffalo, pitched in the most innings. He hurled in 284 frames.

MAYBE, MAYBE NOT!

NEW YORK—Joe Gordon, of the Yankees, clubbed a homer in every American League town—but not in the Cleveland's League park, this past season. Gordon did rap a circuit blow in Cleveland, but that came in the Municipal Stadium.

Busy Week-End For Local Teams

Phil Denardo of Aliquippa lost to Young Van Kirk of New Castle in a 145-pound class fight and Roy Crews of Ellwood City lost to Johnny Cassale of Wheeling at 147 pounds in a fast battle.

Julius Walt and Milt Ashford good lightweights from Braddock and Cecil, put on a very good bout with Ashford winning the nod. Milt was supposed to have met Morar who stopped Walt here Tuesday night.

Bunny Misto, Youngstown, beat Joe Smith, Pittsburgh, at 140; Art Rothour Zelenople, decided Al Volkast, Farrell, at 147 and Ben Franklin, Pittsburgh, won from Luke Jordan, Weirton, at 147. All of the bouts went the limit of three rounds.

Moose To Play West Pittsburgh

City Baseball Champion ship At Stake In Game Sunday At Marshall Field

Baseball for the 1941 season will bow out at Marshall field on Sunday afternoon (weather permitting) when the West Pittsburgh "Gas House" gang battles the Moose club at 2 o'clock.

Both teams have won one game in the current series. The game on Sunday will more than likely be another pitching battle with Manager Danny DeGenova will have both Joe "Screech" Dombek and Mike Marky ready for mound duty. Manager Fz Rodenbaugh will make his choice between Joe Frigione, Johns and Monk Rainey.

In the event of a nice day, the largest crowd of the season will no doubt be at the popular East Side field to watch the teams play and to help ring down the baseball curtain for the 1941 season.

RANK IS O K

CLEVELAND—Cleveland has a lad who ranks with the most promising baseball rookies in the minors. He is Henry Edwards, from the Three Eye League. Henry led the loop in runs scored and runs batted in, total bases and home runs, during the 1941 season.

BRITISH LOUNGE* MODEL for Style

A Great Combination

Our Worsted-tex Wearlong Suit is heralded far and wide for its wearing qualities. It wears longer, needs fewer pressings and resists shine.

To this has been added the fashion-importance and the figure-flattery of the British Lounge Model. This is the famous model that makes a man look taller, broader-shouldered and slimmer-waisted. It improves your appearance by giving you a younger, more athletic build.

So you see, you needn't sacrifice a bit of style for the sake of wear. Worsted-tex Wearlong for wear — and the British Lounge Model for style — that gives you all you could ask of a suit of clothes.

RAMBLINGS

In this week's game of guess the football scores, we've amalgamated a few theories, principles, proverbs and mathematics. Such things as the cosmic constant (unknown to Lou Nova), the law of relativity, the hyperbolic linear fractional transformation, the Pythagorean proposition and hyperbolic geometry have all aided us in dishing out tomorrow's plethora of big games as follows:

Pitt-Michigan: With Edgar Jones limping around, Michigan's task should be even easier. Michigan to move along unmolested, 19-0.

N. Dame-Georgia Tech: Tech's pint-sized backs no match for the mastodons from South Bend. The Irish an easy winner, 24-6.

Minnesota-Illinois: Well rested Minnesota is . . . much to win. The score may be worse than we predict, 28-0.

Penn-Yale: Looks like Penn all the way. The Quakers could run up a lopsided count. Our guess, Penn 24, Yale 7.

Columbia-Princeton: Closer than a coat of paint. String along with Lou Little's Lions. Columbia 13, Princeton 7.

Cornell-Harvard: Harvard's vets acted like a flock of freshmen against Penn. Their spirits buoyed by the Syracuse win, Cornell gets this vote by a 19-7 margin.

Syracuse-Holy Cross: Taking well rested Holy Cross over a tired Syracuse eleven, 13-7.

Dartmouth-Colgate: That Penn State scare undoubtedly helped Colgate. Picking against McLaughry's untested Indians, 14-7.

Boston College-Clemson: This one has plagued us all week. The toss of the coin says B. C. 14-7.

Fordham N. Carolina: A step

closer from Rose Hill to Rose Bowl for Fordham, 24-6.

Northwestern-Wisconsin: If Marquette could beat Wisconsin by 20 points, it stands to reason that Northwestern should, doesn't it? On that theory, Northwestern, 33, Wisconsin 7.

Stanford-Oregon State: Stanford with no comments whatsoever, 24-6.

NO BIDDERS

This may sound a trifle wacky, but there was a job handed out at the court house recently that nobody wanted, that of delinquent tax collector. The fact of the delinquent account this year is so small that a collector would hardly make expenses.

The job was finally turned over to the county treasurer, Earl R. Wimer and all persons delinquent in their tax payments can pay them to Wimer.

Some years ago the job was worth about \$100 to \$1200 to a collector. Last year the delinquent collector didn't average \$50 per month for his work of four months. Its a healthy sign when a delinquent account is too small to attract somebody to take the job.

CANDIDATE EXPENDITURES
At noon Thursday, practically all candidates had made a return of their expenses for their nomination fights. A few were expected in later in the afternoon and these will be run tomorrow.

Those reporting Thursday were: Charles H. Matthews, Jr., candidate for the Republican nomination for judge, \$5399.91. John G. Lamoree, candidate for the Republican nomination for judge, \$4791.55. Leroy K. Donaldson, candidate for the Republican nomination for district attorney, \$1447.91. Thomas V. Marshall, candidate for the Republican nomination for district attorney,

FROM ME TO YOU

By MESEKALL

Some people evidently don't take very much interest in their food. At least that is what it sounds like when they say things about the hints and recipes that are published in this column. We don't say that the ideas set forth here as the best in the world. . . . Not by a long shot. . . . But we do enjoy talking about the cooking of food. . . . As we can't think of anything that is more fun or gives us greater pleasure than "eating." . . . And it's a sport or pastime that all must take part in. . . . No matter if it is just hot dogs or hamburgers, there can be fun and variety in those foods. . . . Life is just what you make it, so why not make it as pleasant as possible.

For the housewife who has been hunting high and low for a recipe for Honey Rolls, we take pleasure in presenting this idea. . . . We thank the donor very much.

Dissolve 1 yeast cake in one-half cup of warm water. Scald one cup milk. Add one-half cup of sugar, a pinch of salt, two-thirds cup of lard, one cup of mashed potatoes, and two well-beaten eggs. Cool. When thoroughly cool, add yeast, and flour to make stiff enough to handle. . . . Place in a bowl and cover with melted butter. Keep in a cool place (not a refrigerator) 12 to 18 hours. . . . Roll out dough. Spread generously with melted butter and brown sugar. Roll like jelly roll and cut to make small rolls. Put in well greased pans to raise, covered, in fairly warm place. Bake 20 minutes.

Some folks like to be "shown." . . . Maybe they came from the "west." . . . So these folks have tried the classified ads. . . . Household articles seem to be in great demand. A lady called the other evening and said she had advertised for a used washer. . . . She sold the washer for a nice price but she had about fifty calls after she had made the sale. . . . You, too, can pick up extra cash by selling what you no longer need. Just use a little classified ad—fifteen words for 30 cents. Cheap isn't it.

Here's to the Ne-Ca High football team . . . may they add another victory to their string . . . and may the fans show real sportsmanship tomorrow afternoon at McKeesport. Good luck to all.
